Menu's philosophy is simple. We want to make the world better, less complicated, a little bit nicer to wake up to. Collaborating with super-talented designers, we make objects to be treasured now... and forever. Quite simply, Menu wants to make your favourite things. We work with some of the most exciting and driven creative individuals from the worlds of architecture and design to produce high quality design with a crisp Scandinavian look.

Menu believes in making design matter and we are obsessed with clever solutions for modern living: a coffee table with a hidden storage compartment, a shelving unit designed to grow as its owner expands into a bigger apartment. Our products are not defined by a single style. What unifies them is a shared aesthetic. We call it Scandinavian "soft minimalism" – characterised by understatement, a respect for design history and a belief that the best design should make us feel something.

Wherever we can, we work locally with craftspeople around the world, preserving skills while creating the best modern design.
